Text Features

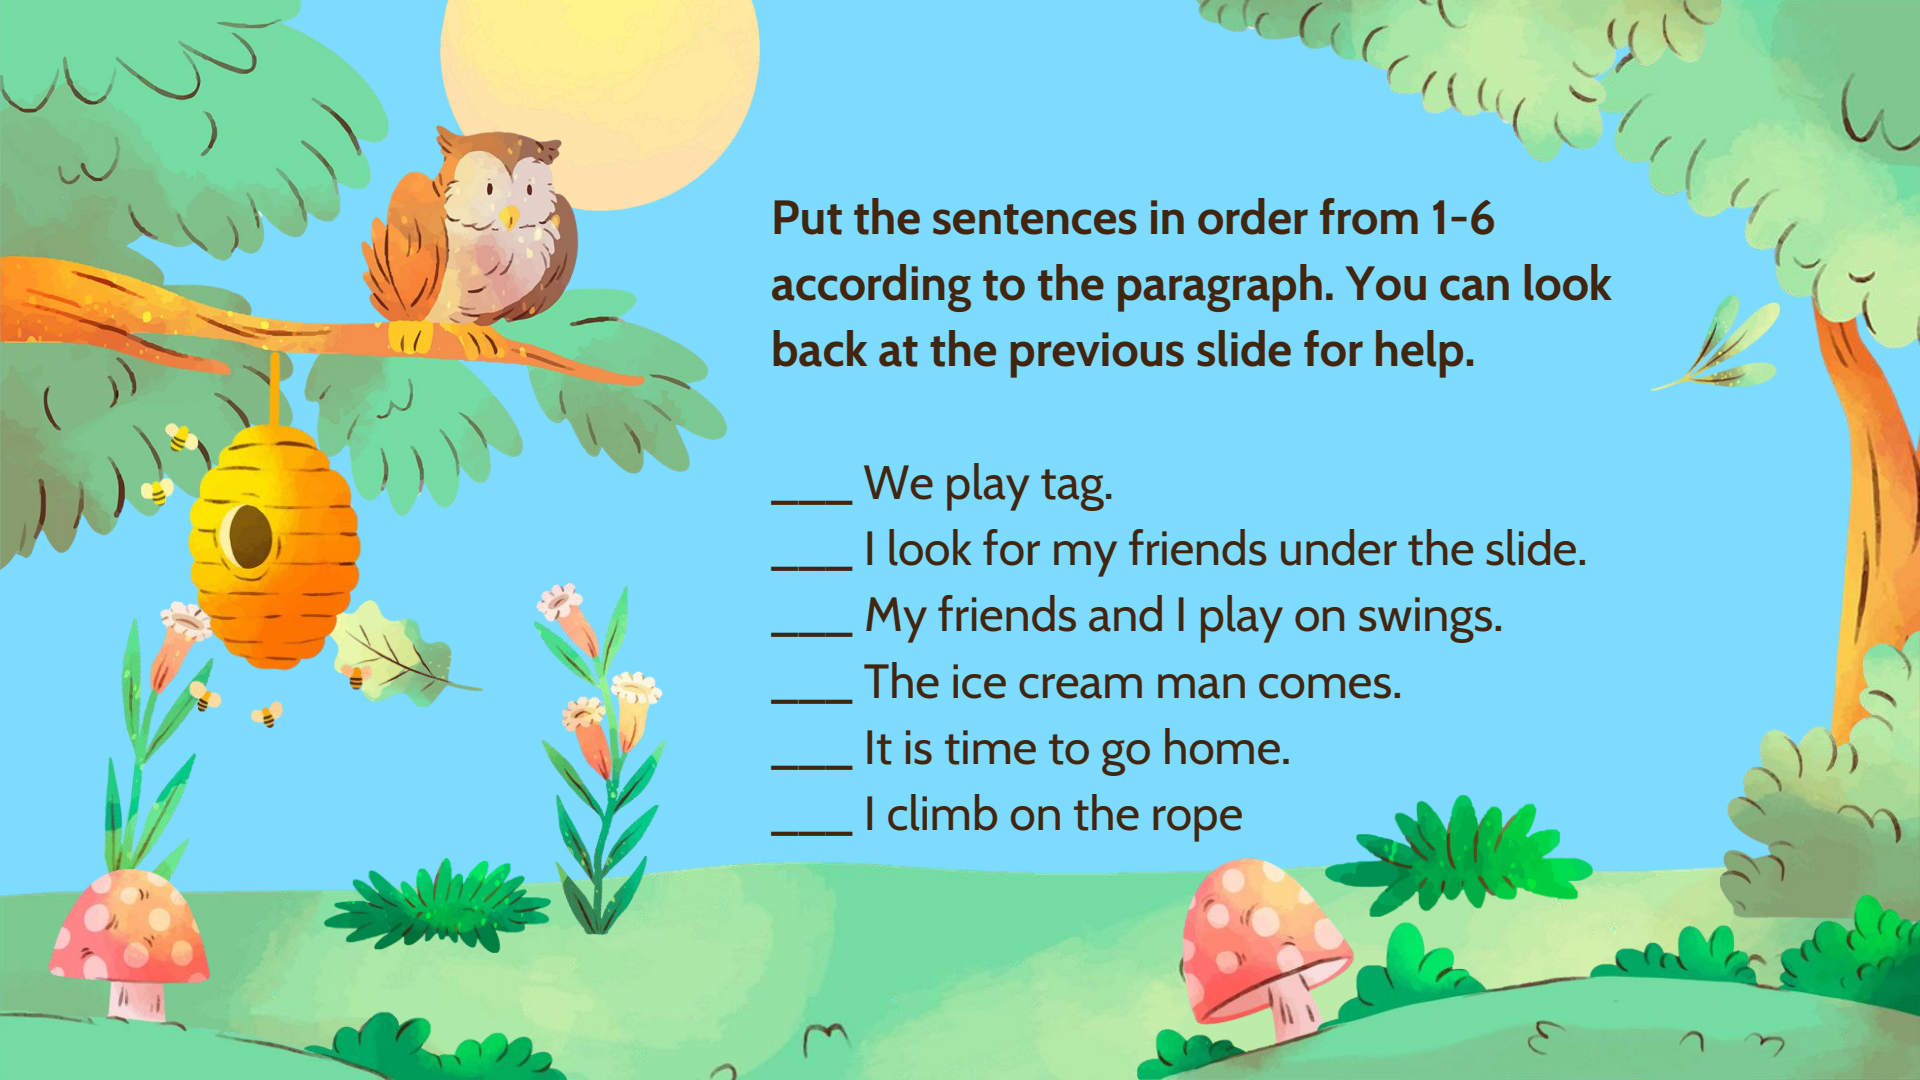

Text features are structural elements in a story that help the reader understand the information better. Examples include chronology, cause & effect, and comparison

- **Chronology:** the order in which a series of events happen
 - Best represented through Venn diagrams
 - Ex: recipes, schedule, biography
- **Comparison:** highlights the similarities and differences between things or ideas
 - Ex: crocodile vs alligator
- **Cause & effect:** explain why things happen (cause) and their outcomes (effect)
 - Ex: testing out experiments

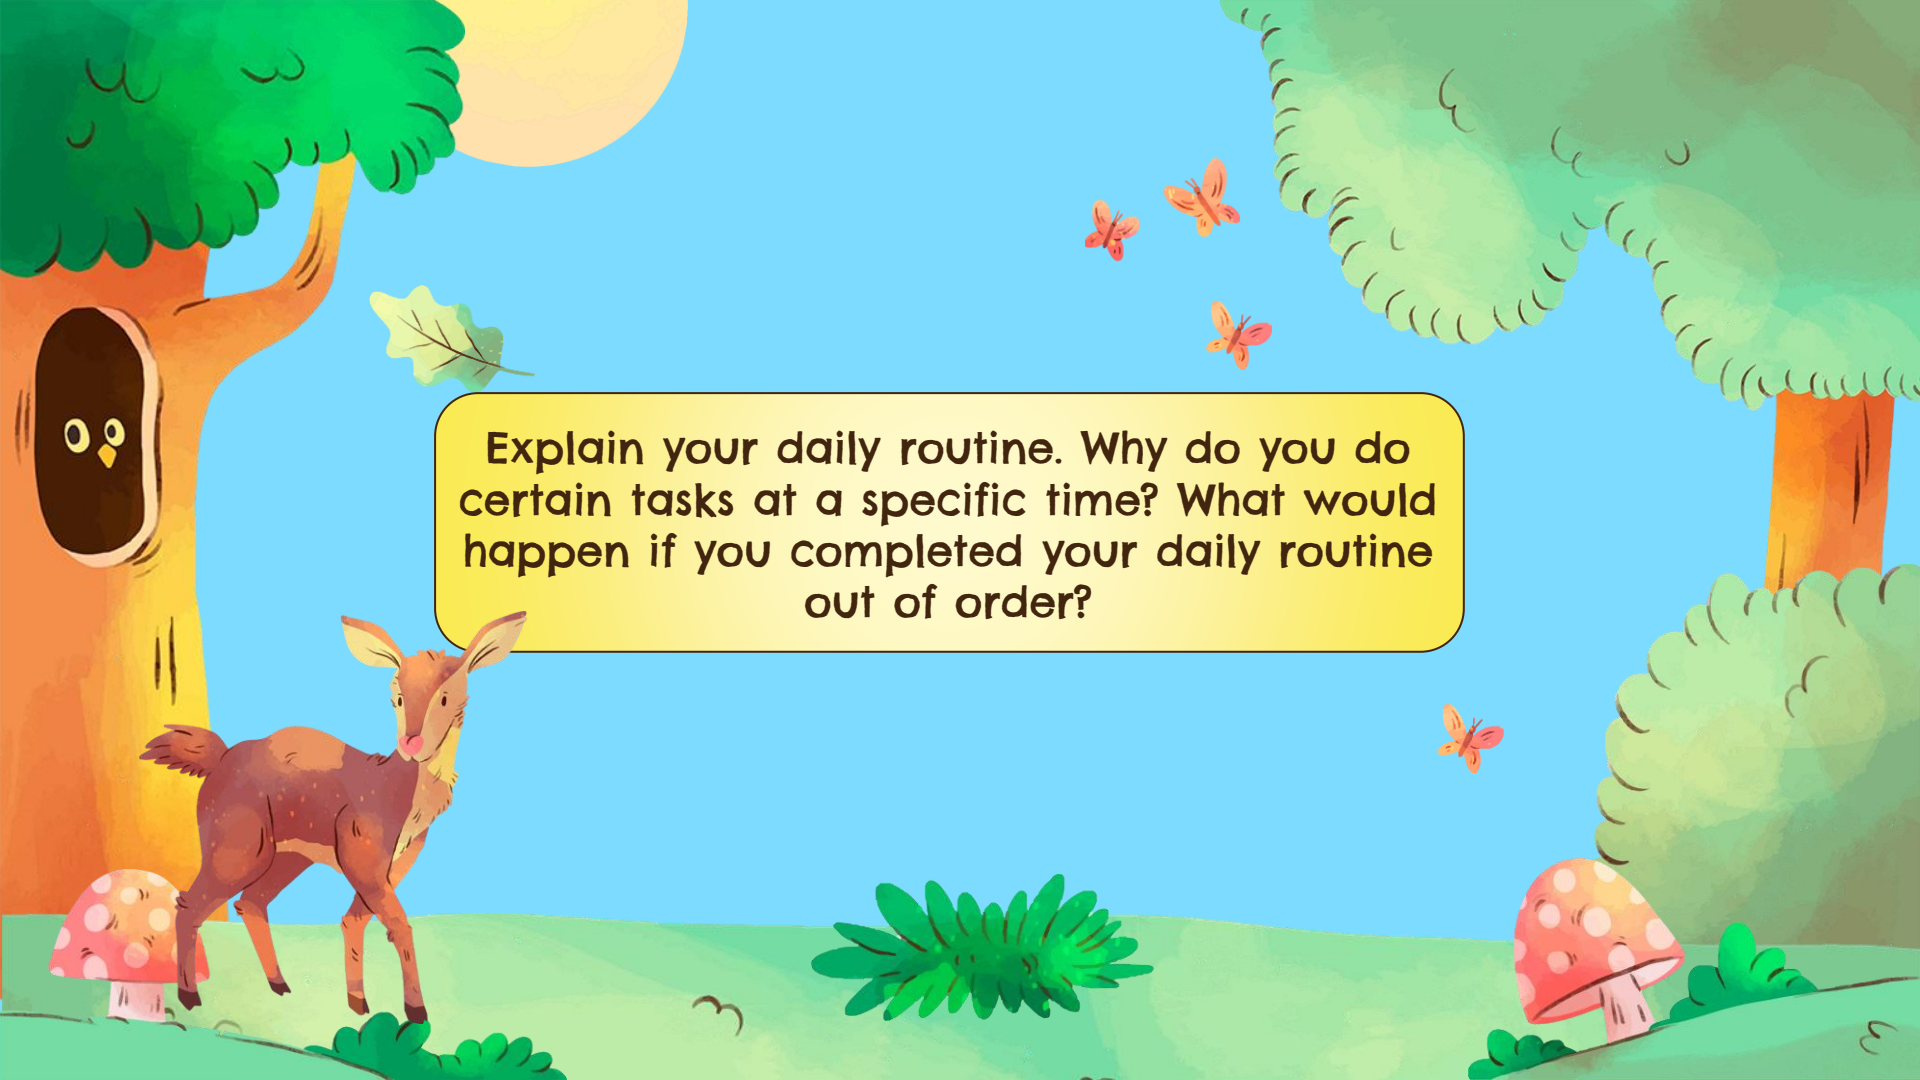

Chronology Practice

I love going to the park with my friends. We always play on the swings when we get there. Also, my friends and I climb on the ropes. We get excited when the ice cream man comes. We have to wait in line to get some. After we finish our ice cream, we usually play tag. I love to run around and catch my friends. They run very fast! Another game we play is Hide and Seek. After I count to ten, I have to find all of my friends. I look for my friends under the slide and behind the benches. It is easy to find them all! After the game, our moms tell us it is time to go home. It has been a busy day for all of us!

**Put the sentences in order from 1-6
according to the paragraph. You can look
back at the previous slide for help.**

- ___ We play tag.
- ___ I look for my friends under the slide.
- ___ My friends and I play on swings.
- ___ The ice cream man comes.
- ___ It is time to go home.
- ___ I climb on the rope

Explain your daily routine. Why do you do certain tasks at a specific time? What would happen if you completed your daily routine out of order?

Cause & Effect Practice

Elsa awoke for school at what seemed like an unusually late time; she glanced at the clock to see 7:45 am. She should have been up 45 minutes earlier and had missed her bus. Darting downstairs, she saw that her mom had already left for work. Hurrying back upstairs, she skipped her morning routine in hopes of catching a ride with her neighbor. Elsa did not want to be to school because she had perfect attendance and could not break that record. Hurrying back downstairs, she picked up the phone and called her neighbor. The phone rang but no one answered. Elsa left the house just in time to see the tail lights of her neighbor's car driving away. Sighing, she went back to the living room unsure of what to do. Some time later, she called her mom, explained the situation, and waited for her mom to come home. 5 minutes later, Elsa's mom pulled into the driveway looking unhappy. Elsa's mom drove rather fast, but they arrived at the school safely and on time.

List some causes and effects from the story. Remember why things happen is the cause and the result or outcome is the effect.

Can you list examples of cause & effect?
Maybe you spilled some water? Why did that
happen?

Comparison Practice

Story #1

Anna woke up on a sunny Saturday morning, her favorite kind of day. She could already hear the birds chirping outside her window. After breakfast, her mom suggested a trip to the park, and Anna was thrilled. She quickly packed her backpack with a water bottle, a book, and a ball. When they arrived at the park Anna and her mom picked a spot under a big willow tree to lay their picnic blanket and eat lunch.

Story #2

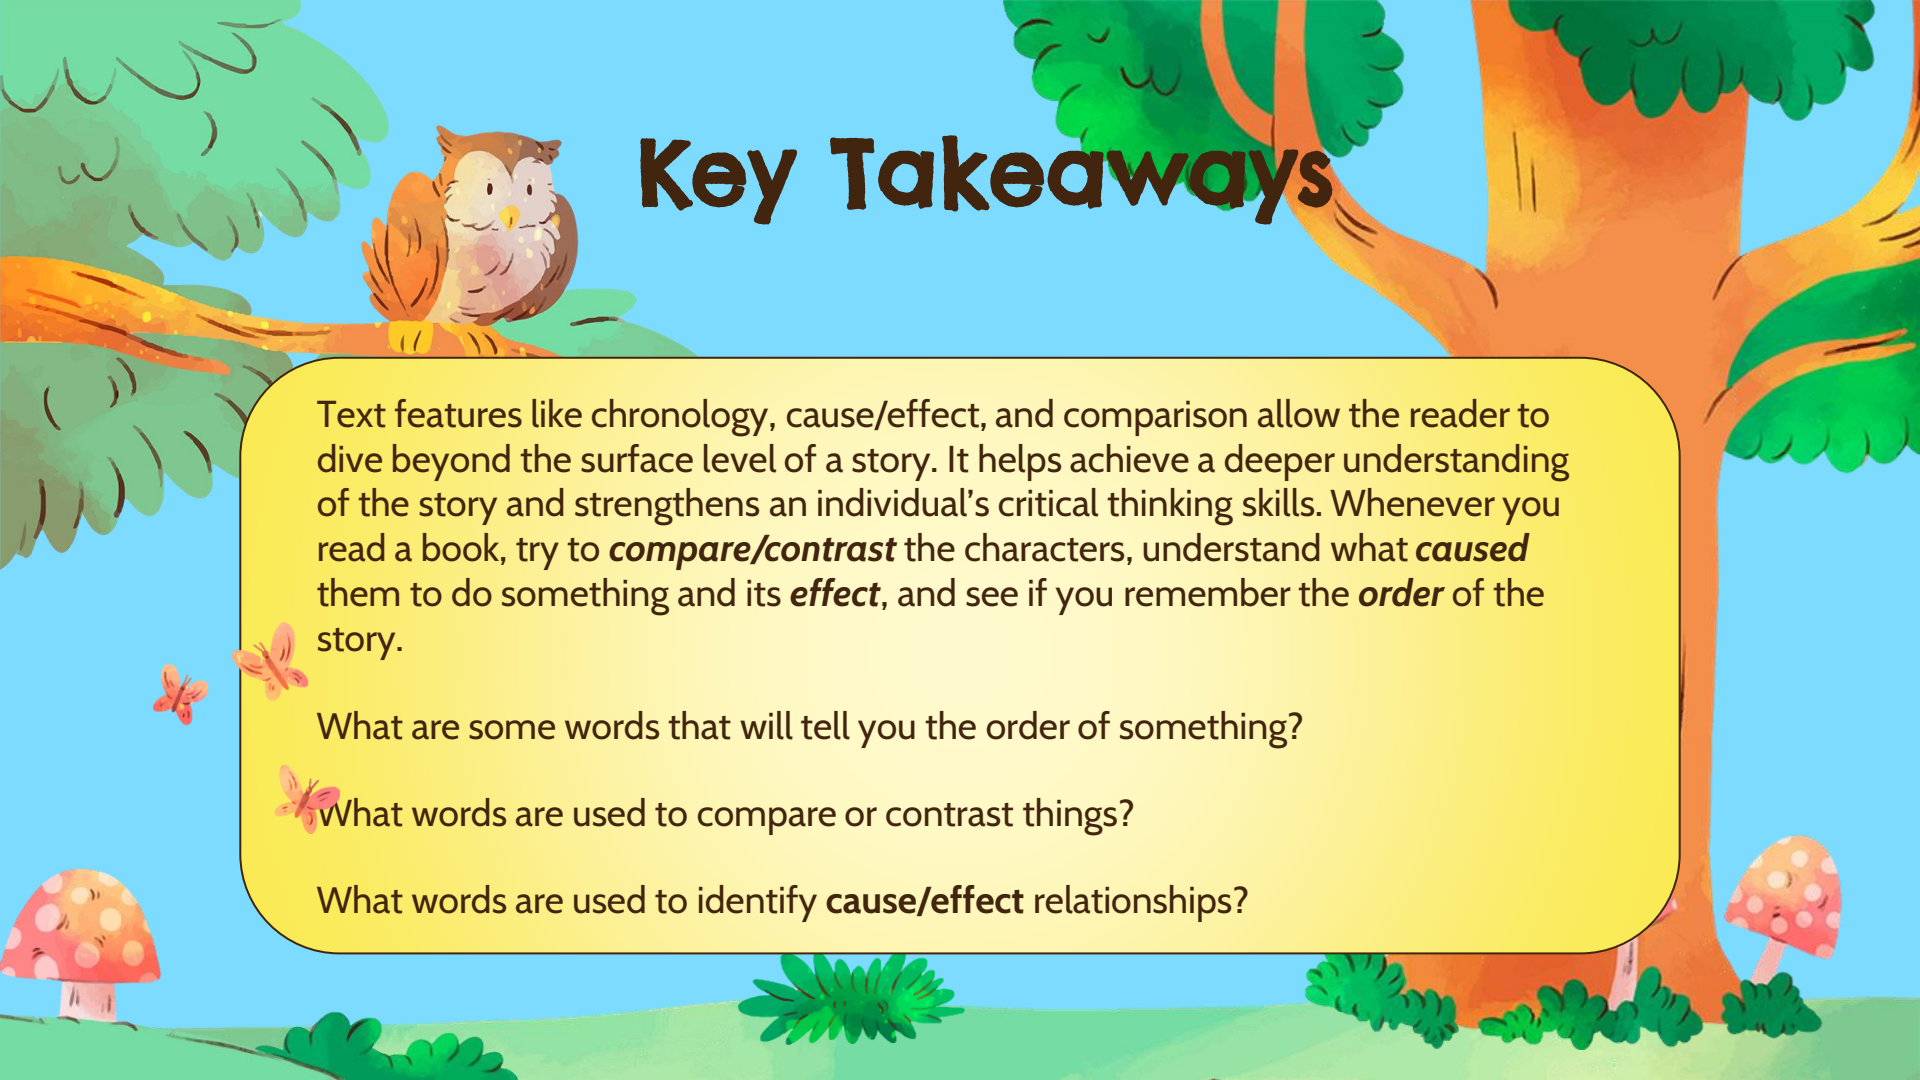

Timmy woke up to the sound of his baby sister crying. It was a loud start to the day, but things got better when his mom said they were going to visit his cousins. Timmy loved spending time playing Fortnite with them. He grabbed his iPad and a snack for the car ride. When they arrived, Timmy and his cousin Deven decided to play outside before playing games. They started with a game of tag on the grass. After they got tired, they spent the rest of the day playing Fortnite and got 10 victory royales.

**List some similarities and differences in
Timmy's and Elsa's stories.**

Why is it important we identify similarities and differences between 2 stories, ideas, or things?

Key Takeaways

Text features like chronology, cause/effect, and comparison allow the reader to dive beyond the surface level of a story. It helps achieve a deeper understanding of the story and strengthens an individual's critical thinking skills. Whenever you read a book, try to **compare/contrast** the characters, understand what **caused** them to do something and its **effect**, and see if you remember the **order** of the story.

What are some words that will tell you the order of something?

What words are used to compare or contrast things?

What words are used to identify **cause/effect** relationships?
