- Poetry helps us to feel, imagine, and see things differently
- Poets use special tools to create meaning in a poem:

Sound

Structure

Figurative
Language

How do Poets use Sound? - Rhyme

Definition: words that end with the same sounds

Examples: bright/sight/night

Why does rhyme matter?

- Helps to make the poem sound musical
- Helps ideas stick in the reader's mind
- Conveys a theme or mood - can make the poem fun or emotional

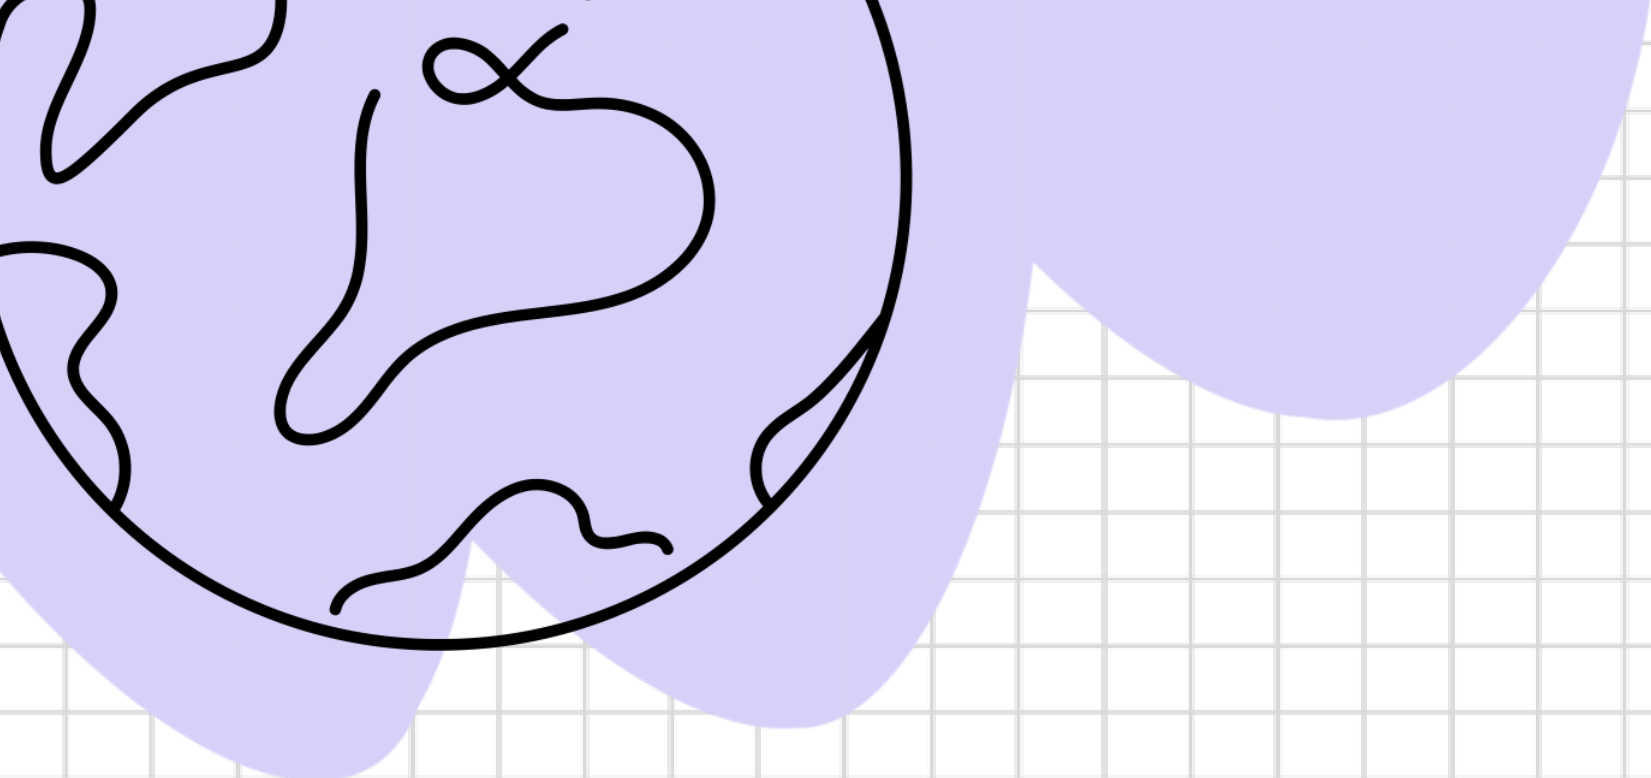

Practice

What elements of rhyme can you find in this poem?

Poem Example: "The Blue Balloon"

A blue balloon flew high above,
It drifted soft, just like a dove.
It bobbed and bounced across the sky,
Waving cheerful hellos as it floated by.

It danced with clouds in gentle light,
A tiny traveler taking flight.
And though the winds would push and spin,
It always found its way again within.

Figurative language in Poetry

Helps to create pictures in the reader's mind, convey the poet's message, and make the poem more interesting.

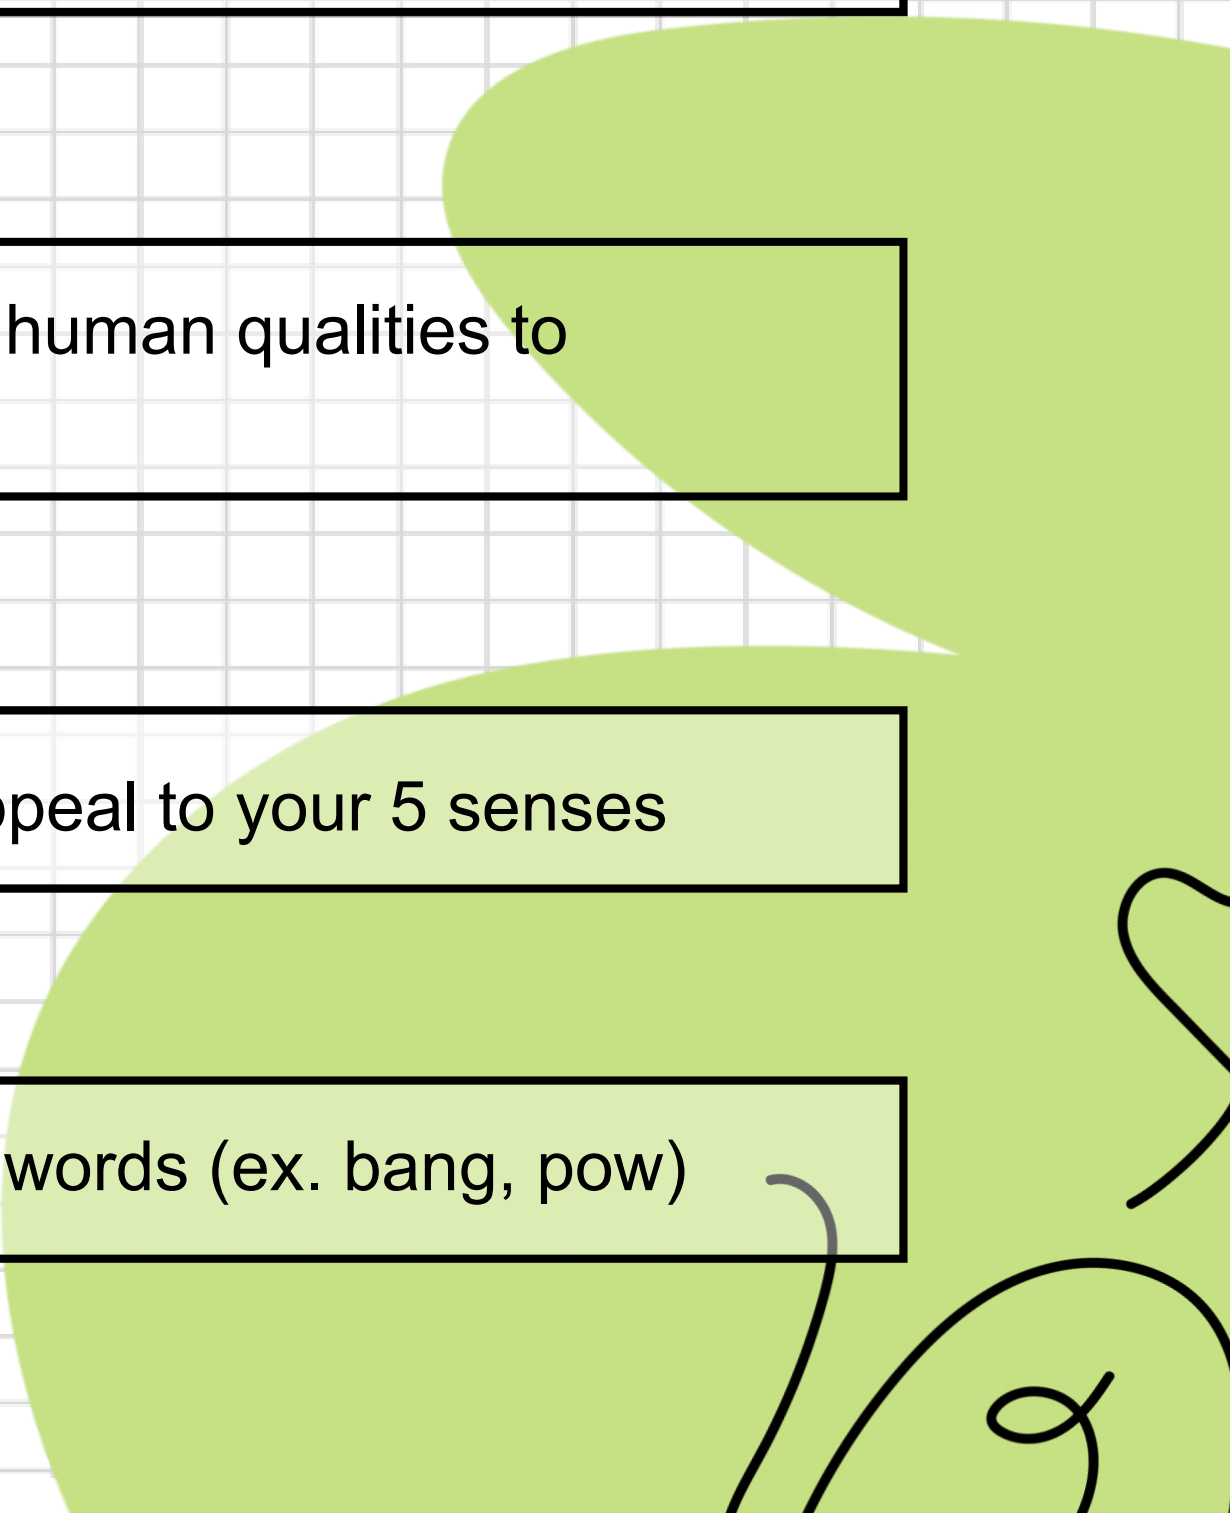

Simile: a comparison using like or as

Metaphor: a comparison without using like or as

Personification: giving human qualities to nonhuman things

Imagery: words that appeal to your 5 senses

Onomatopoeia: sound words (ex. bang, pow)

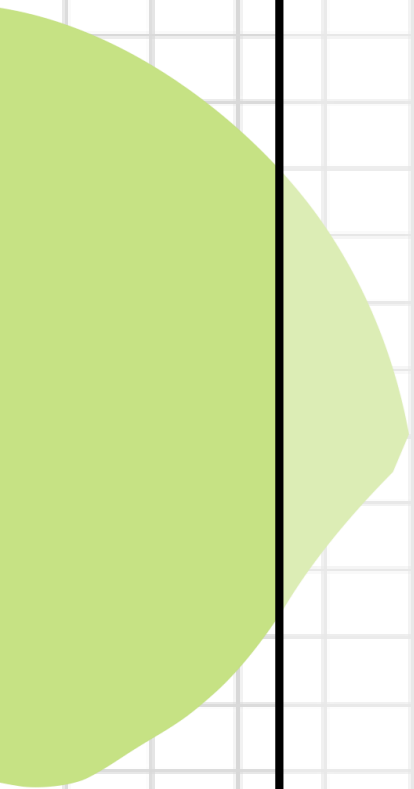

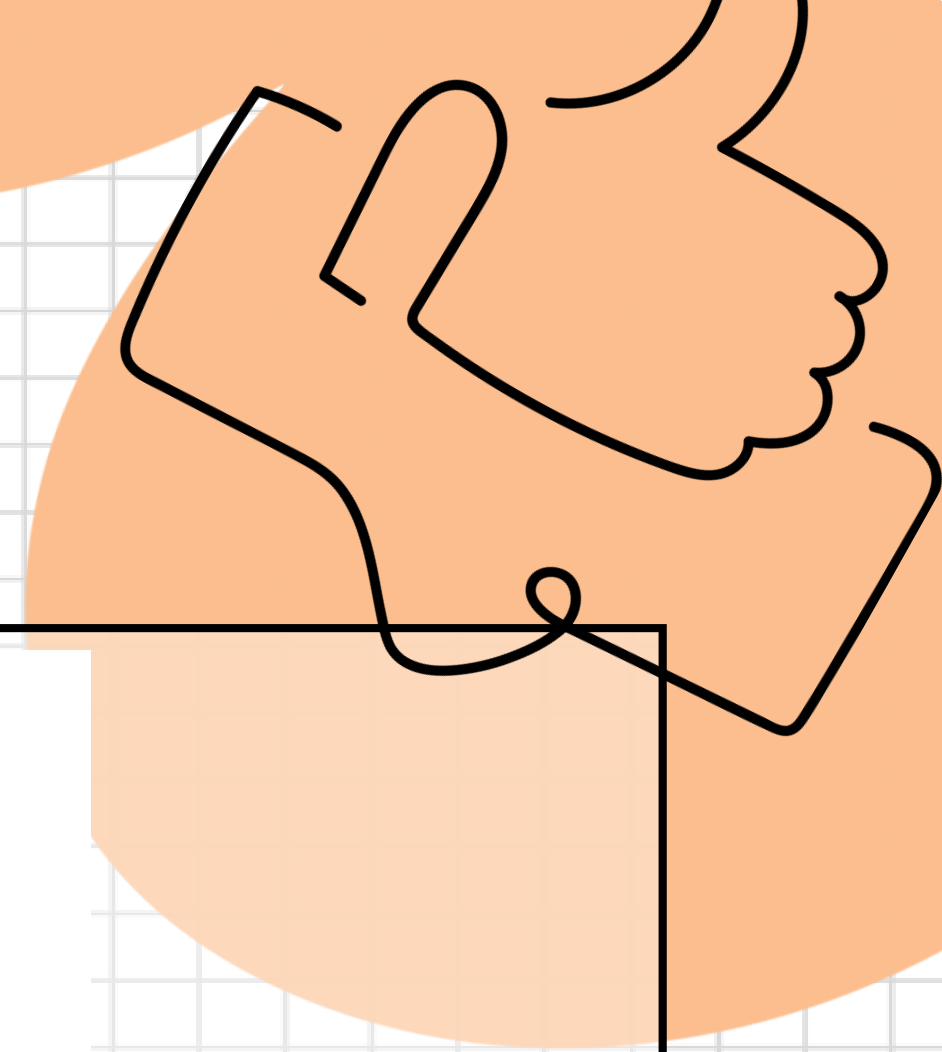

Practice

What elements of figurative language can you find in this poem?

Practice Poem: "The Morning Walk"

The **sun stretched its arms** across the sky,
As the **breeze whispered secrets** passing by.
My footsteps danced **like feathers on a drum**,
Hoping that something magical might come.

The **trees stood guard**, tall and bright,
Their leaves **sparkling like diamonds** in the light.
The world felt **wide, a giant open door**,
Inviting me to wander, dream, and explore.

Dancing softly through the trees.
